Re: **RTX Group appoints GRID14 MOTORSPORTS**

RTX USA Group the southern United States distributor for BRP-Rotax karting products has recently created a long-term alignment with GRID14 Motorsports to assist in the development of the Rotax Max challenge program in the southern United States. Grid14 Motorsports has a successful resume of promotions activities spanning fifteen years and will focus on promoting the Rotax US Trophy South series, a Grand Finals ‘ticket’ series along with the important regrowth of the Rotax program on the local levels throughout the southern United States territory.

“We are pleased to have Grid14 join our efforts in promoting our Rotax activities in the southern territory. Working alongside the proven Race Rotax platform put in place will enable us to continue consistent and quality programs throughout the southern United States as we see continued growth toward the Rotax brand.” -- RTX Group.

The Rotax US Trophy Series South will mirror the existing Grand Finals tickets series including format, regulations and critical staffing to ensure a truly aligned program across the United States. With heavily increased interest in the Rotax platform the addition of Grid14 will enable markets in the southern United States to have a greater access and a quicker response for Rotax Max Challenge developments. Esteban Del Rio, principle of Grid14 Motorsports had this to add; “Working with the Rotax brand in America and assisting in developing the southern territory is something we are very much looking forward to and have already seen tremendous interest. There is no other karting platform like Rotax, the quality, ease of use and performance of the products are un matched which makes this opportunity both exciting and motivating.”

“We have had tremendous success thus far in 2021 with our Race Rotax program and our subsequent Trophy series event structures. We will continue with this unified structure and program from event operations as well as the continuation of our service center and dealer network expansions. We welcome Grid14 Motorsports and look forward to our aligned approach while we provide the unified Rotax platform across America.” – Justin Stefani

About Race Rotax:

Race Rotax is the unified United States outlet for all Rotax Racing activities across the country. The racerotax.com site which is presently under final construction will be the official source for all Rotax event schedules, technical and sporting regulations alongside product information, sales, and the entire valid Rotax service center network. Rotax karting products are officially distributed in the United States by J3 Competition Inc. and RTX USA Group.
