Notices

- All drivers must meet the technical requirements of the United States. All engines must meet the technical requirements of the United States.
- In the instance Scrutineering Mandates Parc Ferme Fuel for selected categories the following process will be mandated.
 - a. Any and all competitors may be asked to have their fuel tank removed for the purpose of being placed in Parc Fermé.
 - b. Any competitor that is selected will be notified in the weigh scale line of any session and will be pulled into tech to have their fuel tank removed.
 - c. The competitors selected must return to the Pre-Grid with enough time to properly attach their fuel tank prior to their session.
 - d. All competitors will be able to receive assistance by the Tech team and tools associated, but will be responsible to have their own tools to properly attach their tank in the Pre-Grid.
 - e. If selected, the fuel may be drained and refilled by the Rotax staff. If the competitor's tank is emptied, fuel will be supplied by the Rotax staff and paid for by Rotax.

Lead Weight Defined

10.4.10 per NKA Insurance Guidelines Update:

Weight/Ballast (UPDATED) 10.4.10.1: All bolt-on weight must be white in color with the kart number clearly marked. 10.4.10.2: All weight added to meet minimum kart/driver weight requirements shall be bolted to the kart with a minimum 5/16 or 8mm through bolt. Weight over 7 pounds will require a minimum single 3/8 bolt, or two 5/16 bolts. All bolts are to use double nuts, with threads of at least 1/4" still visible or a single lock nut with the bolt drilled and using cotter pin/safety wire.

Rolling Start Procedures Further Defined

- i. **Formation Cone:** Once a class has left the grid, they can proceed at a reasonable speed until they reach the Formation Cones (Black Cones), typically half-track distance. At the formation cones, it is the responsibility of the pole sitter to bring the field to pace speed and allow the field to properly line up.
- ii. **Commitment Cone:** Once the pole sitter reaches the commitment cones (Red Cones), the field is now set. Drivers late leaving the grid, who are attempting to regain their starting position, at this point must halt and line up where they are. Once leaders have reached the commitment cone the grid will close. **Commitment cone procedures reset in the instance of an aborted start.**
- iii. **Tram Lanes:** At all starts, all drivers are to stay fully within their tram lanes. Once the race has started, racing has begun and drivers can then move out of the tram lanes.
- iv. **Start Box:** The pole sitter shall approach the start box at a reasonable and maintained pace, roughly 10-15 mph. The speed shall be constant until the pole sitter reaches the start box which is defined by a set of four (4) yellow cones spaced 40-60 feet apart and the Head Flagman throws the Green Flag. The pole sitter must remain at the same, constant pace until the Head Flagman throws the Green Flag. Once the Head Flagman throws the Green Flag, the race has begun. There is no waived start, except with unsafe conditions as determined by the Race Director and/or Head Flagman.

If any driver goes before the first set of cones or accelerates prior to the Green Flag being thrown it shall be considered a jump start and is subject to infraction. If the Off-Pole Driver is ahead of the Pole Sitter at the time of the Green Flag being thrown, that driver is subject to an infraction.

Track Limits

1. See Sporting Regulations

Technical Notice

The event Technical Director has the authority to remove and hold any competitor's engine and or ancillary item(s) and exchange a replacement item to a competitor at any time from the start of official practice on Friday until the event conclusion. The Technical Director has autonomy to keep any engine(s), part or parts after the event's conclusion to send to BRP-Rotax for further investigation should they deem necessary at the cost of Race Rotax.

If the items are found non-compliant by BRP-Rotax the competitor will be wholly liable for all costs associated with the testing and will lose any awards and championship points attained from the said event.

Bulletin Nr. 02

Effective immediately April 8, 2024 official Rotax Bulletin Nr. 02 posted on the Race Rotax website regarding Mini MAX exhaust regulations will be enforced.
